Steve has been juggling for Jesus since 1984 when he was asked to share the story of the Prodigal Son creatively with some fellow college students. He told the story while using juggling to illustrate the words he spoke. Word of his talent quickly spread and he found himself being asked to share his juggling ministry for groups of all ages. Over the many years since that time Steve’s ministry has developed into a world class combination of juggling, comedy and challenging Biblical teaching. You never know what you may see flying through the air – raw eggs, machetes, cannon balls, globes or giant Chinese yo-yos. No matter what is in the air you are sure to enjoy the powerful message of this creative artist.
